

Product description

Soap dispenser and holder

Material: Injected zinc

Finish: Chrome plating

Soap container made of pressed glass in acid matte finish

Cartago Series

Technical specifications:

“Cartago Series” soap dispenser and holder. The product consists of a wall mount, a wall plate covering the wall mount, and a soap container. The soap container is made of pressed glass with an acid matte finish and which is fitted in the circular holding accessory that is attached to the central cylinder by means of screws. The wall plate covering the wall mount, which is fastened to the central cylinder, is made of injected zinc. The wall mount, made of injected zinc steel, has two holes so it can be fixed to the wall by means of screws. The container is filled from the top of the dispenser by unfastening the top piece of the push pump. The assembled set and the top piece of the dispenser have a chromed finish that provides it an appropriate resistance against corrosion. The product is anchored to a brick wall by means of 2 nylon wall plugs and 2 screws. The overall dimensions of the product are 150.4 x 100.4 x 56.5 mm. The accessory model for the HORECA sector is GW05 05 05 02, manufactured by GENWEC WASHROOM S.L. - Av. Joan Carles I, 46-48 E-08908 L'Hospitalet de Llobregat (Barcelona), Spain

Technical characteristics

Product specifications

- Soap container made of pressed glass with an acid matte finish
- Injected zinc wall plate
- The metal parts have a chromed finish that provides them an appropriate resistance against corrosion

Packaging specifications

- Type of individual package: Individual cardboard box and bubble wrap

Cleaning: A cotton cloth slightly dampened in a soapy solution is recommended. Then dry off.
