

#### Product description

Rectangle slim magnifying mirror  
Brass with chrome finish  
Polished finish  
Fully articulated

#### Technical specifications:

Rectangle magnifying mirror. The rectangle mirror consists of a slim wall mount, an articulated arm set in two sections and a mirror support element that allows bending it on its vertical and horizontal axes. This set is manually fastened to thick mounting plate by means of two threaded elements. This plate is fastened to the wall by means of two nylon wall plugs and two screws provided with the product. The articulated arm moves freely on the horizontal plane and it consists of two sections made of precision turned brass parts. The mirror support has a 3x magnifying mirror with a dimension of 200 x 131 mm. The assembled set has a chrome finish that provides it an appropriate resistance against corrosion. The accessory model for the HORECA sector is GW05 39 06 02, manufactured por GENWEC WASHROOM S.L. – Av. Joan Carles I, 46-48 08908 L'Hospitalet de Llobregat, Barcelona.

#### Technical characteristics

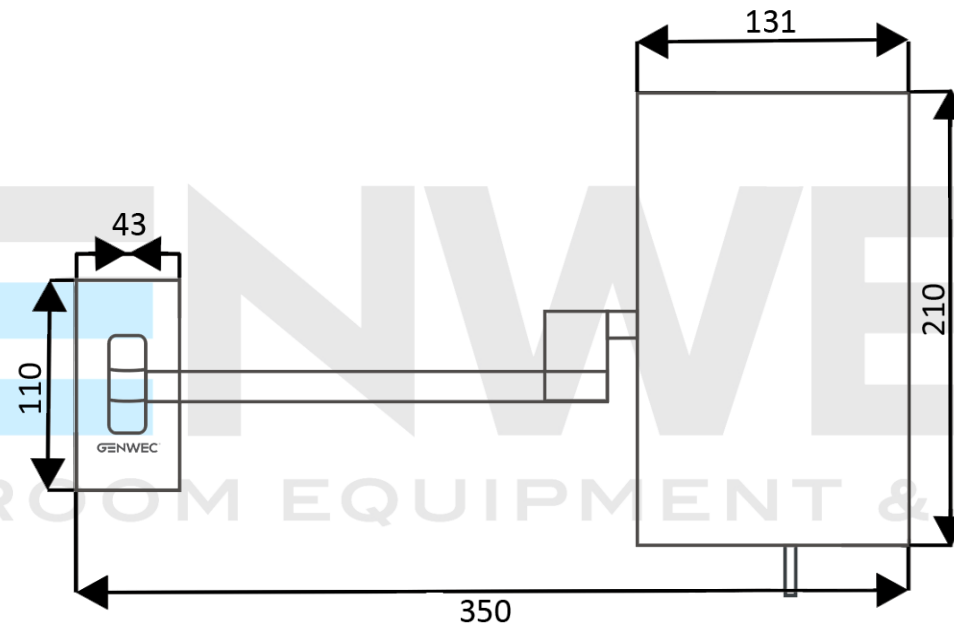

##### Product specifications

- Articulated arm in two sections made of precision turned brass parts
- Free movement of the arm on the horizontal plane
- Single sided with 3X Magnification
- Slim wall mount
- Free orbital movement of the mirror
- Two holes wall mount
- Chrome finish

##### Packaging specifications

- Type of individual package: Individual cardboard box and bubble wrap

BATHROOM ACCESSORIES **GW05 39 06 02 Magnifying mirror**
