

Safety Baby changing station 659/660

Wall mounted
Extremely strong, timeless design
2-year warranty

DAN DRYER baby changing table available with or without safety belt. The table is made of durable and vandal proof materials to ensure it stands the heavy and frequent usage in public areas. It has a unique carrying capacity of up to 400 kg.

Application

This wall-mounted baby changing station is exceptionally strong and thus ideal for public and commercial toilet facilities and it can withstand the rough treatment public toilet equipment is often subjected to.
